TECHNICAL SKILLS

- C#, .NET
- HTML, PHP, CSS, JavaScript
- SQL, MongoDB
- Java (Android)
- Software Testing, Debugging
- Communication

PROFESSIONAL OVERVIEW

I am a third year BSc IT (Software Engineering) student, graduating at the end of 2025, with a strong foundation in C# development, object-oriented programming, and software design. I have entry level experience in Mobile QA testing within an Agile environment and hands-on exposure to technical support and IT systems. My background across hospitality, tech support, and software development has strengthened my adaptability, problem-solving, and communication skills. I am passionate about advancing my expertise in .NET and eager to contribute as a Junior Software Developer.

WORK EXPERIENCE

QA Intern

GenEx | June 2023 – July 2024

Gained hands-on experience in Agile software development with a focus on mobile applications. Formulated and executed test cases, managed tickets, and responded to customer-reported issues. Learned how modern software solutions are maintained and continuously improved.

Independent Tech Support Contractor

Mobil IT (Pty) | Nov 2022 – 2023

Provided IT support including Wi-Fi mesh installations, hardware upgrades, router configuration, and virtual machine setup. This role strengthened my technical troubleshooting skills and broadened my networking and hardware knowledge.

Temporary Receptionist

Seeff Hermanus | Nov 2022 – 2023

Worked across offices in Hermanus, Sandbaai, and Vermont. Managed office operations including answering calls, handling deliveries, printing documents, and assisting staff and clients. Strengthened organizational and communication skills.

Waitor / Barman / PoS Manager

La Vierge Restaurant | July 2018 – 2023

Maintained bar stock levels, updated and managed the PoS system, and ensured menu changes were accurately reflected. Assisted with event preparation, including weddings, while consistently demonstrating reliability and teamwork.
